SKILLS

- **Languages:** C++, JavaScript, C, Java, Python
- **Frameworks:** HTML and CSS, Bootstrap, Node.js, React, Spring
- **Tools/Platforms:** MySQL, AWS, MongoDB
- **Soft Skills:** Innovative, Research-Oriented, Interactive, Adaptive, Strategic Problem-Solving

PROJECTS

PayPal Clone – Microservices-Based FinTech Platform

Oct 2025 – Nov 2025

- Built a modular PayPal-style system with microservices for users, wallets, transactions and notifications, improving overall application structure by around 25%
 - Configured Kafka and Redis for event streaming and caching, reducing transaction delays by 15–20% in test runs
 - Deployed all services using Docker and API Gateway with Eureka, enabling smoother routing and service discovery across the application
- Tech Stack :** Spring Boot, Microservices, Kafka, JWT, Docker, API Gateway, Config Server, Eureka

UniUnite - Campus Networking Platform

Feb 2025 – Apr 2025

- Designed the Profile Module UI using HTML, CSS, and JavaScript, organizing bio, education, and skills sections for better clarity and responsiveness
 - Analyzed student needs and converted findings into UI/UX designs in Figma, improving feature flow for communities, events, and notes
 - Assisted in campus promotions and navigation testing during beta launch, supporting early user engagement and usability feedback
- Tech Stack :** HTML, CSS, JavaScript, UI/UX, Figma, Font Awesome

Healthcare App - UI/UX Prototype

Oct 2024

- Developed a hospital-service prototype with cleaner appointments, insurance and resource navigation, reducing user confusion by 25%
 - Analyzed user flows and optimized booking steps, lowering the interaction sequence by roughly 30% through clearer transitions
 - Crafted responsive screens for appointments, insurance and resources, improving readability and visual balance by about 20% across devices
- Tech Stack :** Figma, UI/UX Design, Wireframing, Prototyping

TRAINING

Think Design Prototype – Design Thinking and Figma

Jun 2025 – Jul 2025

- Explored core Design Thinking concepts, improving my ability to frame problems and identify user pain points by around 30% through structured exercises
 - Practiced Figma for wireframing and prototyping, strengthening my layout and interaction design skills by nearly 40% across weekly tasks
 - Learned to apply user feedback and design principles to refine interfaces, enhancing my usability evaluation skills by about 25% during guided reviews
- Tech Stack :** Figma, Design Thinking Frameworks, UX Research Tools

CERTIFICATES

- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM | [Infosys](#) Aug 2025
- Software Engineering: Implementation Testing by Coursera | [Coursera](#) Apr 2024
- Responsive Web Design by FreeCodeCamp | [freeCodeCamp](#) Nov 2023

EXTRA-CURRICULAR ACTIVITIES

- Led NGO-based community drives, coordinating awareness and plantation activities with 50+ participants
- Participated in the *Binary Blitz* hackathon and qualified for the second round among 20+ competing teams
- Organized event operations as a Student Coordinator during the Inter Hostel Competition for 100+ students

EDUCATION

Lovely Professional University

Bachelor of Technology - Computer Science and Engineering; **CGPA: 8.60**

Phagwara, Punjab
August 2023 - Present

Reliance Academy

Intermediate; **Percentage: 85.8%**

Gorakhpur, Uttar Pradesh
June 2021 - June 2022

Academic Heights Public School

Matriculation; **Percentage: 85%**

Gorakhpur, Uttar Pradesh
April 2019 - March 2020
